

EARMARK DECLARATION

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 16, 2009

Mr. BILBRAY. Madam Speaker, I submit the following:

Requesting Member: Congressman BRIAN BILBRAY

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Department of Justice, Byrne Justice Assistance Grants

Legal Name of Requesting Entity: City of Carlsbad

Address of Requesting Entity: 1200 Carlsbad Village Drive, Carlsbad, CA 92008

Description of Request: I received an earmark of \$300,000 for the City of Carlsbad to construct the first Joint Fire and Police training center in North San Diego County, providing an unparalleled opportunity for first responders to train together and deliver enhanced and coordinated safety for the citizens of our region. Regional public safety collaboration will result in better training, yielding stronger and more coordinated responses by fire, police, public works, FBI, DEA and other North County law enforcement agencies. This project will also better prepare a coordinated, unified response to large-scale disasters and fires in the region.

Requesting Member: Congressman BRIAN BILBRAY

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Department of Justice, Office of Justice Programs, Byrne Justice Assistance

Legal Name of Requesting Entity: City of Escondido

Address of Requesting Entity: 201 North Broadway, Escondido, CA 92025

Description of Request: I received an earmark of \$200,000 for the Escondido Police Department to fund new Mobile Data Computers. Mobile Data Computers (MDCs) enhance emergency communications and support electronic messaging between police vehicles. Officers are dependent on this technology to be responsive to emergencies and have the necessary information to operate safely. Vehicles with new MDCs will increase officer communications and enable them to interface with Escondido's new CAD system with its GPS feature. During a large, regional emergency (e.g. a wildfire scenario) the Emergency Operations Center and 911 dispatch center will be able to visually determine where every Police and Fire unit is located and position them more effectively.

The Police Department currently maintains approximately 160 Mobile Data Computers. About 40 percent of these are three to four years old and are used beyond the manufacturers warranty period. Although these MDCs are still in the field and functioning, they are very costly to maintain. Not surprisingly, the successful deployment of the mobile laptop computers also has created a demand for increased access to new applications (e.g. Automated Field Reporting) and regional law enforcement databases (e.g. ARJIS, CLETS),

which puts a strain on these older mobile computers. Pushing these older mobile computers to the edge of their limits makes it difficult to maintain the reliability necessary for public safety operations. More importantly, some of the desired applications (ARJISNet, SDLaw, CalPhoto, new CAD system) simply cannot be accommodated on the older existing MDCs.

Requesting Member: Congressman BRIAN BILBRAY

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: Byrne Discretionary Grant Program
Legal Name of Requesting Entity: San Diego County, District Attorney

Address of Requesting Entity: 330 West Broadway, San Diego, CA 92101

Description of Request: I secured \$200,000 for the San Diego County District Attorney's Gang and Drug Crime Investigation and Prosecution unit. This proposal for \$200,000 is consistent with the statutory purpose and goals of the Byrne Discretionary Grant Program. Investigation and prosecution of drug and gang-related crime in the District Attorney's Office is manpower-intensive. A substantial number of cases brought to the office come from Federal law enforcement, often due to the inability or unwillingness of the U.S. Attorney's Office to take certain cases. Deputy District Attorneys work hand in hand with Special Agents of the Drug Enforcement Administration to investigate narcotics trafficking activity, much of which originates in Mexico. These investigations, many of which involve technically and legally complex wiretaps of extraordinary scope and duration, require an ever-increasing number of Deputy District Attorneys, as narcotics traffickers, and the attorneys they retain for their defense, become more sophisticated.

Requesting Member: Congressman BRIAN BILBRAY

Bill Number: H.R. 2847, Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010

Account: COPS Technology Grant Program
Legal Name of Requesting Entity: County of San Diego, Sheriff's Department

Address of Requesting Entity: 9621 Ridgehaven Court, San Diego, CA 92123

Description of Request: I secured \$1,200,000 for the San Diego County Sheriff Department's Regional Communications System Upgrade. This proposal for \$1,200,000 is consistent with the statutory purpose and goals of the COPS Technology Discretionary Program. The Sheriff's continued vision is to increase and improve data sharing, automate officer alerts and notifications, improve disaster preparedness, and deliver more intelligence to officers and first-responders. The Sheriff's Department, with assistance from Federal and local agencies has, over several years, undertaken technology projects targeting this vision. These enhancements provide law enforcement with rapid access to critical information and knowledge with less human intervention producing quicker results with greater accuracy. This phase of the SDLaw Infrastructure Program will expand the search and aggregation of intelligence from even more data repositories, add additional business logic, further automate data mapping

and workflow, further improving visualization of the information resulting from this convergence of data from State, Local, and Federal systems and now with the inclusion of County justice case management systems.
